

What do our Members have to say about Glacial Lakes & Prairies Tourism? See for yourself!

Through our partnership with Glacial Lakes & Prairies Tourism, we've not only met some really great people, but we've also been able to spark imagination and inspire play in the greater world. Glacial Lakes & Prairies Tourism has a variety of resources you can use to help market your organization. We've taken advantage of their regional marketing opportunities and have advertised in their many print pieces that help tourists find great places to visit. When you are a member of GLPTA, you help showcase our entire community and state! We all are better when we work together.

Kerrie Vilhauer @ Children's Museum of South Dakota, Brookings

Jody and Rosie have been a constant in our 20 years of business. We look for their guidance in any promotion we do. They are honest, make suggestions, keep us informed, represent us in many different aspects, and take care of us always. We are proud to say that Glacial Lakes & Prairies Tourism has been a part of our business as long as we have been in business. We have been very conservative in our spending for advertising over the years, but have never questioned the worth of our membership with GL&PT. We encourage our customers to share where they heard about us, and are many times pleasantly surprised to hear that we have been promoted at a trade show, or information has been supplied by Glacial Lakes & Prairies Tourism. They take their jobs seriously, and always make us proud to be associated with them.

Paul and Karen Johnson @ Lynn Lake Lodge, Webster

Glacial Lakes & Prairies Tourism is a wonderful resource to utilize in promoting your business. I have had the good fortune to be able to work with both Jody and Rosie for several years. If you have a tourism based business, it's a no brainer to become a member. They have been instrumental in helping promote our hunting business regionally and abroad. Every year they promote us at several regional trade shows. They also promote businesses online and thru print advertising. Their marketing options have allowed us to expand our marketing reach. The services they provide local tourism based businesses are invaluable. If you are not a member yet, you are making a mistake.

Dr. Cyrus Mahmoodi @ Double P Ranch Lodge, Clark

As a small, seasonal non-profit organization, our partnership with Glacial Lakes & Prairies Tourism helps us achieve marketing goals that would otherwise be difficult with our limited budget and part-time staff. GL&P resources have helped spread the word of our summer theater schedule through social media, brochure distribution and print ads in the Visitor's Guide. And knowing Rosie and Jody are just a phone call away if we have questions or need advice is an added bonus. We were able to participate in one of the new regional marketing opportunities which helped us explore a new marketing option we hadn't tried before. It's a positive partnership we are proud to be a part of.

Pam Lunzman, Northern Fort Playhouse, Fort Sisseton/Lake City
